

March 30, 2009

The ROAR President along with the ROAR Executive Committee and The 1/8th Racers of Toledo and The Midwest Racers Organization announces several changes in the nationals schedule for 2009 regarding on road fuel racing. Due to hardships and a struggling economy and considering financial concerns for both host venues and ROAR, we are obliged to combine the fuel events into one venue and choosing a date that best suits travel and vacation scheduling.

The 2009 ROAR On Road Fuel Nationals will now be held at One-Eighth Racers of Toledo in Toledo, Ohio on September 2nd through September 6th. (Labor Day Weekend) This is one week earlier than previously scheduled. Also, this event will also host the Fuel Sedan classes therefore moving the previously scheduled event from Midwest Racers Organization in Lincoln, Nebraska on October 8-11, 2009.

This event, now combined and moved to a week earlier will host 1/8th 4wd Open, 1/8th Masters and 1/10th .12 4wd Touring Car (IFMAR 200mm) in one event. As always, participation in the Open class eliminates participation in the Masters class. The entry flyer will be published within the next few weeks.

Contact information for the Toledo Racers can be found on the ROAR website.

ROAR apologizes for any inconveniences this may cause some racers with their planning. Taking everything into careful consideration, this is the only logical step we can make to insure the best outcome for the on road fuel nationals and our membership.
