

October 17, 2009

Dear ROAR Membership: The ROAR Executive Committee's fall meeting has concluded and the minutes from the meeting will be published in the next few days. Although, one item we found of major importance was the announcement of our 2010 ROAR Nationals host venues. Some of this information has leaked out prior to today as the excitement for the events is evident. The ROAR Executive Committee would like to make these announcements official and congratulate the venue selections. We received several excellent bids for each event and we hope to save those venues not selected for consideration in 2011.

Please, take a moment to congratulate these hosts for their selections. These events will be managed by the ROAR RMT staff. The 2010 Nationals Guidelines will have a few alterations to several race programs, so please be sure to download a copy and review should you intend to participate in a ROAR National event in 2010.
