The Official Bi-monthly Newsletter of Roar

Nationals in Full Swing

In case you haven't noticed, the RC racing season is in full swing. We're currently in the middle of the Nationals with still more to go. Take a look at the upcoming Nationals and if you haven't entered yet, do it now.

2005 National Championship Schedule

Modified Off-Road Nationals

R/C Madness—Enfield, Connecticut
860.741.6501, cmarcy@rcmadness.com
www.rcmadness.com
July 21-24, 2005

Fuel 'Open' On-Road Nationals

Full Throttle Speedway—Kissimmee, Florida
407.791.2321, defiant9@aol.com
www.fullthrottlespeedway.com
November 3-6, 2005

Paved On-Road Electric Nationals

Speedline Hobbies—Holiday, Florida
727.536.7223. October 6-9, 2005

Stock Off-Road Nationals

Scottsdale R/C Speedway—Scottsdale Arizona
480.945.2186, Anfinson1@yahoo.com
www.scottsdalerc.com. October 20-23, 2005

Paved Oval Nationals

Blountville Model Speedway—Blountville, Tennessee. 423.323.1513, drdaleb@charter.net
www.racebms.com. September 29 - October 2, 2005

Fuel 'Sedan' On-Road Nationals

RCRC of North Texas—Dallas, Texas
817.477.4777, arlpaver@flash.net
www.RCRCNT.com. July 14-17, 2005

Fifth Scale Nationals—T.B.D.

REMINDER: ALL BIDS FOR NATIONAL EVENTS FOR 2006 ARE DUE BY JULY 31, 2005 TO DAVID LEE, ROAR COMPETITION DIRECTOR leeda@mail.tqci.net.

Recently Approved Motors:

The following Brushless Modified Teardown is approved:

- Modified Novak Novak Brushless, 1050 Teardown, bare Al can ends, purple band 3.28.2005

Recently Approved Battery:

At this time the following battery is approved effective January 1, 2005:

- GP Epic Monster Metal Shrink Description: Black center band with edges of black and white diagonal stripes.

Recently Approved Bodies

The following bodies are approved for competition:

- 1/10 Supertruck McAllister Chev Silverado 215—03.26.08
- 1/10 Nextel Cup McAllister '05 Dodge Charger 216—03.26.08

Inside this issue:

Region 1.....	pg 4	Regions 9 & 10.....	pg 10
Region 2.....	pg 5	Region 11.....	pg 11
Region 3.....	pg 6	Region 12.....	pg 12
Region 4.....	pg 7	Regions 14 & Canada.....	pg 16

Regions 6, 7 & 8.....	pg 9	ROAR Race Flyers.....	pgs 14 & 15

Rule Changes

CARPET OVAL NATIONALS (ONLY)

The following deviations that came as requests from the Oval Rules Committee and were approved by majority votes of the ExCom.

Brushless and Open Modified:

We are modifying the position of brushless in open modified for the 2005 Oval Nationals only. Brushless will be run as a separate class and will not be included in open modified for oval racing.

Body trimming:

A deviation has been approved to resolve a conflict in the rule book for oval bodies. The body rule (6.1.15) requires the body to be cut at the molded trim line and a minimum body height as shown on rule 8.9.8. We typically have enforced the ride height as the trim line would usually make the body stick way up in the air. For the 2005 Oval Nationals the minimum ride height "C" will be the governing dimension.

1/12 scale NASCAR bodies:

A deviation request was approved for 1/12 scale NASCAR bodies. The approved 1/12 scale NASCAR bodies for oval are not available (Bolink is out of business and Proline/Protoform 1/12 NASCAR bodies will not be made anymore). Because of this, the 1/12 scale class will be allowed to run whatever 1/12 scale body they can find to run. Supplies are very limited at best. The deviation request is to not require the use of an approved 1/12 scale oval body due to availability concerns of the effected drivers.

Administrators Column

Fred Hohwart

Our ROAR membership statistics indicate that a majority of members reading this issue are new this year and are reading the June issue of Rev-Up for the first time. I generally repeat some of the information annually, including a description of how the ROAR insurance program works and what a great benefit it is to ROAR members.

How ROAR Insurance Works

The ROAR insurance program is one of the most valuable aspects of ROAR membership. The insurance policies are complex but I would like to try to summarize the key parts of the insurance program in layman's terms, particularly for the new members, as part of my annual column on this subject.

ROAR members are covered by two ROAR insurance policies, liability and bodily injury, while participating in a ROAR sanctioned race or a practice for such a race.

Liability: This policy protects members from claims resulting from damage caused by their R/C car to spectators and others. The insurance company has the right and duty to defend the insured (member) against any suit seeking damages because of bodily injury or property damage, and pay those sums the insured becomes legally obligated to pay up to the \$ 1 Million policy limit. This applies to ROAR sanctioned races and practices and basically applies to accidents directly related to the operation of an R/C car. Damage caused by a wind blown pit umbrella or shade tent isn't covered. Often that kind of coverage is provided by your homeowners policy. In my opinion, the greatest value here is the protection from lawyers and lawsuits. (Insurance company has the duty to defend...). You've got to have a real bumper of an accident to cause \$1 Million in damage. In terms of cost, this liability coverage currently represents about \$4.80 of your annual membership fee. The liability cost per member

has increased compared to a few years ago, primarily because the insurance industry is experiencing more lawsuits and larger damage awards for liability claims in general.

Bodily Injury: I like to think of this as a "no-fault" injury policy because it pays medical expenses if you hurt yourself in a ROAR sanctioned race (trip over your own feet turn-marshalling) up to \$10,000. Most member's accidents are minor and fall within the current \$200 deductible for each claim, however, a broken leg with resulting hospital and doctor bills adds up real fast with today's high medical costs. In terms of cost, the bodily injury coverage currently represents \$1.40 of your annual membership fee. During the last few years, the insurance company has paid claims including one for nearly \$6000 to cover medical costs for a member's broken arm. It also rejected one claim for nearly \$1000 identified by the Emergency Room physician as a skateboarding injury, which obviously was not RC related. One aspect of both policies of insurance is that they are secondary to any coverage you may have that is already obligated to pay the covered expenses. In other words, you would not be able to receive payment twice for the same expense.

A ROAR sanctioned race is one run by a ROAR Club or Track with an approved sanction from ROAR. Clubs are automatically issued a certificate of insurance naming them as an additional insured under the member policy. If they use someone else's property for a race, the insurance company will add that party, (landlord, city park, shopping center) as an additional insured for a nominal fee (currently \$67.11 including insurance tax). These additional insured parties have the same coverage as the member. Again, remember the main value here is the insurance company's "duty to defend" and the lawyers tendency to sue anyone even remotely connected with the event looking for deep pockets. The key element to all of this, particularly for the Clubs, is that the insurance coverage is related to the individual member insurance, and if the person having an accident is not a ROAR member

the insurance company won't know him. The track's coverage depends upon having all racers be ROAR members. Remember to let the race director or track owner know of any accident, and write down his name and number, so the insurance company can verify the details of any claim submitted.

The \$6.20 of your membership fee devoted to the insurance program is an excellent value particularly in this day and age when there are so many lawsuits. We want to make sure that all racers at our events are protected by the insurance coverage, so make sure that you are participating in a ROAR sanctioned race run by a ROAR Club (listed here in *Rev-Up* under your Region report), and that everyone participating in your club events is a ROAR member. It's cheap insurance. ■

Competition Director

David Lee

One of my duties is to solicit the bids for level 4 events for the coming year. ROAR has offered championships in all racing classes since it's early days. Now is the time for clubs, commercial tracks and racing facilities to consider hosting one of these championship events for 2006.

The ROAR process is for an interested host to construct and submit a bid to me for the championship they wish to hold. The bid will then be sent to the class committees overseeing each racing discipline for endorsement of the best bid or location for the event. The bids and the endorsements will then come under review of the Executive Committee for final determination of the successful bids for 2006.

Bids shall follow the format identified by the template on the ROAR internet site. The template is located in the Nationals section. It includes topics such as description of the racing facilities, proposed date of the event, classes offered, identification of race officials and their qualifications and others relevant to the success of the proposed event.

Three national championship events have been completed at the date this article is written. Two of the events have been conducted without a hitch, while one of the events had numerous issues even though there were great racing and worthy champions. ROAR has learned that the staff conducting the event is very important to the success attained.

Many times it is easy to overcome deficiencies in the staff, but every once in a while, that is impossible. There have been suggestions that ROAR establish a permanent team of officials to staff these events. I agree this is a solution that will reduce the possibility the event will have uncorrectable problems. This is an important topic the Executive Committee will discuss relating to future level 4 events. One of the negatives for a move like this is the cost to retain and travel a competent team of officials. Part of the discussion will be to compare those costs against the value they represent. I personally hope those costs do not outweigh ROAR's interest to high value events. ■

Promotions Director

Dawn Sanchez

Greetings ROAR members! This month I wanted to remind all track affiliates that we are attempting to advertise in the national magazines all the sanctioned races but, it takes getting the information to do it! I hear all the time, what does ROAR do for me.. well, c'mon guys....send me the date, track, contact info, type of racing information of all your sanctioned events and we'll get them advertised!

Also, we are able to get the magazines to print the national event entry forms but remember, three months ahead of time is when we have to have them to make on time printing!

ROAR banners have been mailed out to the national venues and I recently received one banner for each region director to take to events and races they attend to do some promotions! I will be mailing those out very soon. (sorry I haven't done that already!)

Please, contact me at roarpromotions@cox.net should you have any promotional ideas or want to step up and do some good with ROAR. Class committees are always looking for participants and personally, I'll take whatever help I can get! ■

Things have been kind of quiet in Region 1 since the Nationals at Hobby Chamber while people switching from electric to nitro. Writing this in May, we have seen a lot of rain washing out the early portions of the outdoor season. Many of the 'kick off' kind of races have been washed out.

Hobby Chamber hosted the 2005 Carpet Onroad Nationals back in March. What an interesting event—interesting is probably an understatement. Lots have been said about how poorly this event was executed. Most of which is true. It is easy to point fingers at ROAR and/or Hobby Chamber for the event, which many did. I was there, I saw. I was involved in some of the planning. I know some of the inside issues. Many situations were handled poorly all around, leading up to, during and after the event.

On September 1, 2005 I will review all bids received for the sanctioned events of 2006. If you would like to host sanctioned events in 2006 please submit a sanctioning form to me. This will be a first come first serve. Tracks submitting by September 1st will have preference.

RC Madness will host the ROAR Modified Off-road Nationals July 21-24. Goto Rc Madness' web site for the entry form and the information. Madness has been working hard to cover all angles of this event to ensure that it will be a success.

Don't forget about the calendar at <http://www.localendar.com/public/region1>. The entire

schedule in and around Region 1 is included—well at least the facilities that sent me information. If you would like your race event or weekly racing included, please drop me a line. The following is the listing of the ROAR sanctioned events. For non ROAR sanctioned events, see the calendar. The schedule is jam packed. If your event has yet to be scheduled, let me know the details and I will help promote it, ROAR or not.

Schedule of 2005 events

June 4-5 2005
ROAR NERCAR Club. Level 1, NERCAR.

June 12 2005
ROAR BARCARC Club. Level 1, BARCARC.

June 18-19 2005
NERCAR Nor'Easter. Level 2, NERCAR.

June 25-26 2005
ROAR Region 1 Electric Off-road Regional Championship. Level 3, RC Madness.

June 26 2005
ROAR BARCARC Club. Level 1, BARCARC.

July 9-10 2005
ROAR NERCAR Club. Level 1, NERCAR.

July 17 2005
ROAR BARCARC Club. Level 1, BARCARC.

July 21-24 2005
ROAR Modified Offroad Electric Nationals. Level 4, RC Madness.

July 30-31 2005
ROAR Region 1 1/8 Fuel Onroad Regional Championship. Level 3, NERCAR.

August 7 2005
ROAR BARCARC Club. Level 1, BARCARC.

August 20-21 2005
ROAR NERCAR Club. Level 1, NERCAR.

August 27-28 2005
ROAR Region 1 190/200mm Paved On-Road Regional Championships. Level 3, RC Madness

August 28 2005
ROAR BARCARC Club. Level 1, BARCARC.

September 10-11 2005
ROAR Region 1 Fuel Offroad Regionals. Level 3, RC Madness

Septmeber 10-11 2005
ROAR NERCAR Club. Level 1, NERCAR.

September 18 2005
ROAR BARCARC Club. Level 1, BARCARC.

September 29-October 2 2005
ROAR Paved Oval Nationals. Level 4

October 1-2 2005
NERCAR Trophy Race. Level 2, NERCAR.

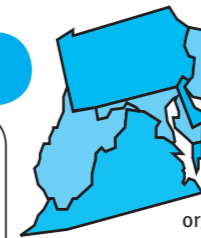

October 9 2005
ROAR BARCARC Club. Level 1, BARCARC.

October 22-23 2005
ROAR NERCAR Club. Level 1, NERCAR.

October 30 2005
ROAR BARCARC Club. Level 1, BARCARC.

November 3-6 2005
ROAR Fuel On Road Open Nationals. Level 4. ■

1/12 Stock: Mark Unrath
1/12 Modified: Jeff Cuffs

2005 Champs:
1/10 19T Electric Sedan: Craig Xavier
1/10 Stock Electric Sedan: Dan Hartman
1/12 Stock: Heimbart Olmos

For a few Region 2 members, this receipt of this report will be old news. That's because a few members are on the Region 2 e-mail distribution list and have already received this article via e-mail. If you'd like to be added to distribution list, please forward your e-mail address to carl.giordano@cit.com.

The planning of regional events for the year 2005 has been slow. To better administer the region, I've asked Mark Somerville who was instrumental in coordinating the 2004 Fuel Off-Road Points Series to assist as the Off-Road Regional Director. Unfortunately, I've been unable to coordinate and get a schedule set for the Region 2 Regional off-road electric and Fuel Championships. Homer Allman has expressed and interest in hosting the electric off-road, date to be determined and I'm still waiting to hear from Tony West, the new operator of Pasadena raceway, Homer and Mark about a fuel off-road points series. I'm sure we will have something set soon which will be highly advertised on all the Internet forums.

In an earlier press release, I expressed my goal for 2005 and this upcoming 2-year term would be a continuation of what I've already started. To improve ROAR's presence and ensure there exists a fair and consistent level of racing at all Regional, State Championships and High Profile events throughout our Region. Lets dissect this goal. I will continue to enforce the concept of creating a fair and consistent level of racing throughout our region. I'm passionate about this and feel it will lead to a greater level of competitive racing throughout our region. This quality of competitiveness

was evident at the On-Road Carpet Regionals hosted by The Track this past April. I will however not waste anymore of my time defending the actions of ROAR in what I believe are the organizations weaknesses. Just after the on-road carpet nationals, I submitted my thoughts to the executive committee and everyone involved with ROAR as guidance to improve ROAR's presence at future national and regional level events. With the exception of a few regional directors voicing support for my program, I've not heard a word from any of the decision makers at ROAR. I'm very disappointed.

Race Report: During the time since my last *Rev-Up* release, The Track in Gaithersburg, MD hosted the 2005 On-Road Regional. Just like the 2005 Mid-Atlantic Carpet Clash, the turnout for this event drew the top on-road drivers from throughout the region. As I expected the race program as support was exceptional. Special thanks Perry Caswell, race director and to Glenn Peters and Scott Buller for assisting me in tech throughout the event. FYI, Mimi has expressed an interest in hosting the 2006 Carpet Nationals, which I will campaign ROAR. Of special note, the level of racing displayed during this event far exceeded that which I witnessed during the carpet nationals. During the 1/12th Stock A-Main the difference between 1st and 3rd, Heimbart Olmos, Perry Caswell and Heon Ryou overall was less than 8 seconds, with Perry finishing just 2 seconds behind Heimbart. Even the 1/12th B-Main proved to be a competitive battle between Charles Leinbach and Robert Poage. In Stock Sedan, Dan Hartman and Chris Vogan battled it out finishing 1st and 2nd respectively, separated by less than 2 seconds. In 19T Sedan A-Main, Craig Xavier was in a class by himself, finishing almost a lap on 2nd place Billy Spence. The battle during this race was for 2nd place as 2nd through 6th all finished with 24 laps and within 6 seconds of each other. For me the race was great, even though I decided not to race and focused on overseeing tech. This also allowed me the time to sit back and enjoy the main events. I'm also please to report that we had no instances of any technical violations. The results of the race are as follows:

1/12 Stock A-Main: Heimbart Olmos, Perry Caswell, Heon Ryou, (TQ) Vincent Jackson, Dave Rasnake, Keith Wright.

1/12 Stock B-Main: Charles Leinbach, Robert Poage, Rod Mitchell, Stephene Ludlum, Gareret Huffman, Steve Walter.

Stock Sedan A-Main: (TQ) Dan Hartman, Chris Vogan, Mike McDaniels, Keith Trapp, Ike Peacock, Anthony Saunders, Michael Mulherin, Wayne Hanbury, Wade Shive, Shawn Davis.

Stock Sedan B-Main: John Ceci, Bill Dolch, Austin Huffman, Steve Walter, Kevin Bojarski, Reggie Barnes, Anthony Reynolds, Russell King, Mike Fraser, Ron Follett.

Stock Sedan C-Main: Melvin Aulston, Jake Pocock, Cody Buehler, Dimitri Benitez, Jorge Garcia, James Underhill, Shawn Patterson, Dave Williams.

19 Turn Sedan A-Main: (TQ) Craig Xavier, Billy Spence, Mike Dunnigan, Keith Koway, Chris Hawkins, Tim Gitchell, Greg Fangonil, Komkit Litisard, Mark Unrath, Jeff Cuffs.

19 Turn Sedan B-Main: Aaron Sanford, Jeff Bagamaspad, Larry Fairtrace, Thomas Keiser, Arvin Nano, Robbie Dodge, Danny Jenkins, Rob Estep, Sutton Boo, Binky Griffin.

19 Turn Sedan C-Main: Kevin Turner, Dennis Storti, Ian Mulhern, Tim Vause, Isaac Wilson, Fred Borderabe, John Ceci, Mark Folderavek, Mike McBride, Kevin Bojarski, Dave Irrgang.

I'm pleased to announce and welcome two additional Region 2 tracks to the list of ROAR affiliates. RCTRACK and STEEL CITY HOBBIES will both host regional events for 2005. Even more exciting for Region 2 is the return of a Carpet Oval Regional Event, hosted by Steel City Hobbies. Please check out their websites for the regional application forms and information.

Confirmed Events:

REGION 3

Region Director: Mike Russell
PO Box 222, Pine Bluff NC 28373
910.281.5844; MRussell4@NC.RR.com
sandhillsraceway.com

**Alabama • Georgia • North Carolina
South Carolina • Tennessee**

The Paved Oval Regional has been scheduled for August 6, 2005 at Blountville Model Speedway in Blountville Tennessee. For info on the race contact Dale Benton at drdaleb@charter.net. The Electric Off-road Regional is almost set and will be in late September. The host track will be in the next region report. The Paved and Carpet onroad regionals are still not scheduled. Contact me if your track is interested in hosting either of these races.

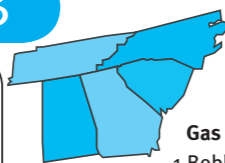

Below are the results from the 2004 Fuel Offroad regionals held at The Proving Grounds in Sumter South Carolina.

1/8 Scale D-Main:

1 Jon Marshal, 2 Jim May, 3 Ricky Osteen,
4 Allen Champ, 5 Karl Kobernus, 6 Blake Taylor.

1/8 Scale C-Main:

1 Brian Keith, 2 Eric Smith, 3 Jon Marshal,
4 Steve Smith, 5 Brent Roupe, 6 Glen Gioia,
7 Mike Bermudez, 8 Travis Phillips,

9 David Saunders,
10 Gus Primm.

Gas Truck B-Main:

1 Bobby Patsel, 2 Gus Prim.

1/8 Scale B-Main:

1 Brian Higgins, 2 Pete Worth, 3 Mark Johnson,
4 Chuck Tutt, 5 Hart Wilkie, 6 Brian Keith,
7 David Jessen, 8 Dell Mathis, 9 Greg Smith,
10 Michael Roy.

Novice Gas Truck A-Main:

1 Phil Brooks (TQ), 2 Tim Ford, 3 Marty Null,
4 Mike Allsbrook, 5 John Kelley.

1/8 Sportsman A-Main:

1 Nick Smith, 2 Jody Ogle, 3 Mitch Looper,
4 Taylor Winstean, 5 Jeff Pate (TQ), 6 Ed Paoquen.

Gas Truck A-Main:

1 Travis Dupree (TQ), 2 Mike Kendall,
3 Lance Norrick, 4 Steven Tingen, 5 Seth Wrobel,
6 Bobby Patsel, 7 Jason Brown, 8 Pete Worth,
9 Kevin Bullock, 10 Todd Norder.

1/8 Scale A-Main:

1 Glenn Harrison, 2 Daniel Aycoth (TQ),
3 Robin Nelson, 4 Chris Crews, 5 Jason Brown,

REGION 4

Region Director: Bill Fraden
9711 Sharing Cross Dr., Jacksonville, FL 32257.
904.268.1948, wfraden1@aol.com

Co-Assistant Directors:

Izzy Santiago and John Malin
On-Road Director: John Grant
Off-Road Director: Jeff Keeton
Oval Director: Ken Holmes
Nitro On-Road Director: Jarrod Pilone
Florida

It's spring and going into summertime here in Florida. I've only gotten one report on the Electric On-road series this time. The new Off-road director had a race this past weekend and it will not be possible for a report at this time. The Nitro On-road regional was rained out I believe and I have not heard anything yet. However I'll see the nitro director this coming weekend. Hopefully on the next *Rev-up* I'll have many articles and updates on the different series racing. I do know many racers here in Florida are gearing up for the On-road Electric and Nitro Open Nationals coming here in October and November. There will also be a nationals warm up (electric) in September so check Speedline hobbies website for current information.

The FSEARA series is going to be celebrating our 25th anniversary next month in Daytona at Strickland R/C track. They will be giving several special awards to the "New Hall of Fame." I know I'll be one of them—I've been racing in the series of 24 years. I can say it's been a real interesting time. I've meant so many people, some real characters thru the years. Also made some great friends and have enjoyed traveling around the state. Although it's an old saying any weekend racing is better than working. Now days the racing weekends are just the

state race weekends. This will soon change as a new permanent track will be build about 3 miles from my house (Sunbeam R/C Raceway). They will have both an On-road track and an Off-Road track.

Also new in the state is what was formerly known as Full Throttle Speedway is now Kissimmee R/C Raceway. The new partners

Rafael Angula and Kevin Hutchinson will be fixing up the place and Hosting the ROAR Nitro On-Road Nationals on November 3rd-6th. I'm sure with these new owners and what they have planned for the place everyone will see a big improvement. I'm looking forward to racing my electric cars and watching the planes fly around. Oh yes and a few golfers having a good round or two.

Searching the internet today I've got some racing dates for the Ft. Myers R/C Club: June 4-5, July 16-17, August 13-14. Saturdays practice all day from 9:30 to 3:30pm. Sunday practice 9:00am-10:30 with two rounds of qualifying and the mains. Also The Sunshine Bandits of Central Florida have released their club race schedule: August 27 28, September 10-11, October 15-16, November 12-13, January 28-29, March 18-19 and April 15-16 Trophy Dash.

The Forgass Series for 2004-2005 is finished. This year the series has grown and here are the top three in each of the classes.

1/8—Chuck Moon (Series Director), Aston Brinson,
Ryan Rhodes.

1/10 Outlaw—Collin Ashley, Jim Rice, Julian Hope.
200mm—Scotty Gray, Maxy Velazco, DJ Apolaro.

While searching the web I also found out that the 2006 Winter Nats are being planned for February 12-18. I usually get the paperwork in the summer so we see if these dates are correct.

FSEARA race winners correction for our 1st race. Steve

McNichols in 19t touring and Art Jenson in modified Touring. Sorry for the wrong information I posted. Now as for the third race that was actually our second—hosted by Superior Hobbies in Orlando. Saturday was interrupted by rain after the first round of qualifying. So for Sunday we decided to have two rounds and the mains. Here's the results:

Touring Stock A main: Team Butter, Michael Abraira,
Ben Griffin, Rolando Cusine.

Touring Stock B Main: Juan Mercado, Tim Kowal,
Todd Allen.

Touring Stock C Main: Martin Grace, John Golden,
Mark Mixon.

Touring Stock D Main: Andrew Beck, Johnny Book Jr.,
Jon Beck.

Touring Stock E Main: Josh Cornwall, Tony Munno,
David Book.

1/12 19t A main: Michael Bruce, Hector Garcia,
Shad Galante.

1/12 19t B Main: Mark Mixon, John Grant, Lynn Munno.

Touring 19t A Main: Shad Galante, Joel Bandera,
Michael Abraira.

Touring 19t B Main: Hector Garcia, Tony Padilla,
Rolando Cusine.

Touring 19t C Main: Gregory Hunsinger Jr.,
Juan Mercado, Kent Perlinski.

Sportman Stock A Main: Kyle Calkins, Stephan PantoN,
Robert Falcon.

Touring Mod A Main: Paul Wynn, Jeff Brown,
Steve McNichols.

Touring Mod B Main: Alexander Lopez, Art Jensen,
Matt Kauffman. ■

REGION 5

Region Director: John Kohan
jkohan@columbus.rr.com

**Illinois • Indiana • Kentucky • Michigan
Ohio • Wisconsin**

The racers that ran the brushless systems, all Novak, are committed to see that class grow.

In the end, Mike Kingsley won the 1/10 Brushless, Frank Ulbrik won the 1/10 Modified, and Chris Ulbrik won 1/10 Stock. The mains were a blast to watch and I'm glad I had the opportunity to meet many of the Oval racers.

I had the opportunity to meet many of the Oval racers.

Region 5 Champions

Oval 1/10 Brushless—Mike Kingsley
Oval 1/10 Modified—Frank Ulbrik
Oval 1/10 Stock—Chris Ulbrik

Some of the regional's have now been awarded. They are:

- Electric Off-road Regional, CRCRC—10/8/2005.
- Gas Off-Road Regional, JCP—TBA.
- Paved Oval Regional, Hobby Hub—6/10/2005.
- Michigan State Championships (Off-Road), Redline Racing—9/17/2005.

I'm also working with a club to host the Ill electric Off-Road Champs and by the time you read this, the event dates will be set. There are still several events to be hosted for the 2005 season. So far there are no

ON-ROAD events awarded. If you are interested in attending an On-Road sanctioned event, please get with your club and see if they are interested. If you have any questions, please feel free to contact me.

Available sanctioned races that are yet to be awarded in Region 5 for 2005

Oval Events (carpet, dirt, paved): Region 5 Dirt Oval Championship, State Dirt Oval Championship, State Carpet Oval Championship, State Paved Oval Championship.

On-Road Events (electric and fuel): Region 5 Fuel On-Road Championship (asphalt), Region 5 Electric On-Road Championship (asphalt), Region 5 Electric On-Road Championship (carpet), State Fuel On-Road Championship (asphalt), State Electric On-Road Championship (asphalt), State Electric On-Road Championship (carpet).

Off-Road Events (electric and fuel): State Electric Off-Road Championship, State Fuel Off-Road Championship. ■

I'm glad to see the activity in the region heating up. So far Region 5 has hosted the Oval Carpet Regional as well as the Carpet Oval Nationals. Halo Hobbies in Toledo Ohio hosted both races.

The regional has hosted on March 12 and went off without a hitch. Halo put their best foot forward and it showed. Qualifying was for three rounds followed by the mains. Halo listened to the Oval Community and added a Brushless class. In the mains, the Brushless classes were faster than the Stock classes.

REGION 6

Region Director: Ed Hill
P.O. Box 7401, Jackson, MS 39282
601.924.6416;
fast@smallcarsunlimited.com
Arkansas • Louisiana • Mississippi

Well, here it is, time to write another *Rev-Up* report, and there have been no trophy type races in the region so far this year. Although I have no race results to report, I can report that R/C racing on a local level has been very active. Our weather, which has been milder than normal, has let all of our region's tracks continue to be very active.

Meridian R/C Speedway has continued to lead our region with the largest group of racers interested in dirt oval racing. While they race all classes, nitro trucks still seem to be very popular. I have been told that a new off road track is under construction. When it is completed I will want to check it out. Meridian R/C Speedway races every Friday evening.

Red Stick R/C Raceway is the only indoor racing facility in our region. The Pino family just celebrated 5 years in business and son Todd's birthday with a special weekend race. The celebration race was well attended and as expected,

everyone had a great time. Red Stick R/C Raceway is going to try racing every other weekend and see how this schedule works out.

Rick's R/C is the newest track in our region. They have a paved banked oval track as well as an off road track. These folks are very eager to become known as a fun place to visit. It is very nice to have another paved oval in our region.

Small Cars Unlimited is still going strong and racing every Saturday. With 2 off road tracks, a dirt oval track, an asphalt on road track, and a concrete high banked tri-oval track, Small Cars can run any ROAR class from 1/18 scale up to 1/5 scale. June of this year, Small Cars will celebrate 17 years in business. How much longer do you think Ed can put up with R/C racers?

Iowa • Kansas • Missouri • Nebraska

Hello once again, fellow racers. I write this article in early May, long after the busy winter racing season is over and right before the summer season officially begins. I thought it would be a good time to reflect on what I've learned since taking over as region 8 director.

For starters, this job is not easy. One of the largest problems we face, especially in winter, is scheduling. Unfortunately, every track in the Midwest schedules its trophy races in the span of about two months, and there are some races that have been going on for years on the same dates. The January off road race in Chillicothe is just one example. Picking the dates for the carpet on road and oval regionals was especially tough this year, because February and March are jam-packed. I tried to schedule the races far enough away from everyone else's races to at least give region 8 roar members the opportunity to go to as many of those races as they could.

In the future I hope to avoid any more problems by doing what I've done this year with the electric off road regionals.

Because the summer time is such a ruckus of activity with annual races, the electric off road regionals are taking place in October on what is normally the fall

race in Chillicothe. Scheduling regionals in place of the host track's well known and attended event will hopefully keep conflicts to a minimum, and I hope to do more of the same in the future.

The other thing I learned is that Oval racing is not only tough, but also alive and kicking in our region. The carpet oval regionals took place March 4-6 at the Hobbytown Hobbyplex in Omaha, Nebraska, and oh man, was it a great race. Oval racing is fun to watch and even more fun to announce. A majority of the time these guys are less than an inch from each other bumpers and some of the passes I saw were downright pretty.

As it was with the on road regionals, the oval regionals attracted racers from outside the region. There was a great group of guys from Colorado, that were extremely fast, as well as a few guys from Region 5 including Snowbirds winner Sonny Brown. There were 99 entries total, another success in 2005.

Practice started early on Friday; with the groove left by the on road regionals the previous week disappearing in a matter of hours, and the oval groove got blacker than I'd ever seen. If you got out of that groove you were toast.

Three rounds of qualifying took place Saturday, and it

was super close, especially in 4-cell stock. A resort was done after two rounds, and there was very little movement in the top ten of each class, until the last chance qualifier on Sunday.

Oval racing is great because you only need one good run to get in the show. And there were several drivers that got in the main on the last day by bearing down and getting it done. Single A-mains were run in the afternoon on Sunday, and what a set of races it was. In 4-cell stock, Mike Kelm TQ'd all four rounds of qualifying and stayed out in front the whole main while tight clean racing took place behind him. 4-cell 19t was a surprise as Brittany Murdock showed up on Sunday, unable to make qualifying on Saturday, qualified 2nd and then drove to the lead in the main to take the win. Jeff Goodier proved that nothing is set in stone when he took the win in 19t 12th scale. TQ Sonny Brown got into trouble early and never recovered. 2005 National brushless class winner Phil Beardshear hinted at his later success by taking the regional brushless championship after he TQ'd all four rounds and drove away in the main. Danny Bartholemew continued his great success by winning the coveted 4-cell mod class in a close race with Sonny Brown and Rob Murdock. Mike Lafferty waded through absolute terror in the Hobbyplex's very own Plexcup class. TQ Phil Beardshear had a target on his rear bumper and Craig Maline found it...and then found it again. Plexcup is a stock class with cost in mind, only allowing spec tires and a spoiler on the body instead of a wing. It was carnage, but fun carnage...

Full results can be found at www.hobbyplexraceway.com. Make sure to check the facility while browsing it is a great racetrack with the promise of many future successes.

By the time you read this the off road nitro regionals will have taken place June 17-19 at Novelty RC

Raceway in Novelty, Missouri. www.noveltyrc.com. I'll get the results in the next rev-up. I'll also have some results from the Nebraska State off road champs that will take place June 5th, and the Missouri Hall of Fame Race taking place June 10-12. Also start making plans for the electric off road regionals at North Missouri Off

Road Raceway, October 7-9. www.nmr-c.com.

If any one is interested in hosting a state race let me know. Kansas, Missouri, and Iowa are lacking a state championship race for all the classes that we run. Let's step up and host an event. It's as easy as picking up the phone or writing e-mail-Alex. ■

Oklahoma • Texas

Hello racers. Not too much to talk about this month. The Texas Biggie will be over by the time you read this, and I will have a report next month on it. RCRCNT Has spent

a great deal of time and effort to improve there facility for the Biggie and the Sedan Nationals. I will be at the Biggie, the Sedan Nationals, and I am going to race at the Electric Mod. Nationals. So till then, see you at the races!

I still need tracks to host regional events. If you or your local ROAR sanctioned track wish to host any events,

feel free to email me. Garyjokc@aol.com.

Promotions note: The 2005 Off Road Fuel Nationals was recently held in this region and was very successful. For results, please visit www.gearsrc.org or contact Burt Bowers at the GEARS R/C Club in Harlingen, Texas. This region director was unable to attend and a written report of the event can be found in this issue. ■

can contact Shannon at (307) 857-0418 or (307) 851-8140 for more information.

Intermountain R/C Raceway will hold the On-Road Regional Championships. (As of today a Date has not yet been set.) Call Jeremy at 801-250-8303 Tuesday or Fridays 4pm-8pm for more information. No other tracks have submitted any information.

I received an e-mail from a fellow Regional Director that was concerned about the up-coming On-Road Nationals, were he heard that the 19T

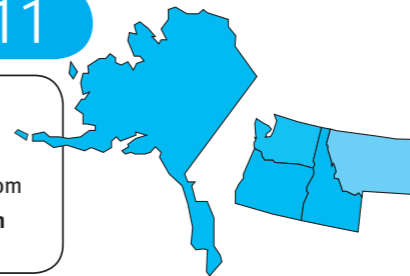

Motor Class was not going to be allowed. He was also concerned about the Brushless Motors being allowed at the 2005 Carpet On-Road Nationals.

As of today, there are not any 19T Motors approved from ROAR, (Because none of the manufacturer's have submitted any).

I would like to know how you, as Region 10 members, feel about the 19T Class and the Brushless Motor System.

Please E-Mail me with your opinion of the 19T Class and Brushless Motors so I can pass it on the the ROAR EX-COM Committee. ■

REGION 12

Region Director: Steve Wang
717 Brea Canyon Rd., #12, Walnut CA 91789
909.869.9443
Steve@speedtechrc.com
California • Nevada • Arizona

a good show and was the host of ROAR national race before, so you know you can expect a good race weekend from these guys. SpeedWorld raceway is also one of the most beautiful permanent outdoor facilities on the west coast, with great traction,

We are excited to announce two more upcoming ROAR Region 12 races:

The ROAR Region 12 Paved On-Road Regional will be held this year at the beautiful SpeedWorld Raceway in Roseville California September 2nd-4th. For more information please contact:

SpeedWorld Raceway and Hobbies

Director: Billy Bowerman
90 Corporation Yard Rd., Roseville, CA 95678
Tel: (916) 783-8864

challenging layout, just a lot of fun to run on. Online registration for the race should be available soon on the SpeedWorld Raceway's website.

Another exciting race this year will be the ROAR Region 12 Carpet On-Road Regional, held at the new Hobby World Raceway in Gilroy California October 21st-23rd. For more information please contact:

Hobby World of Gilroy

Director: Nick Martinez

The crew at SpeedWorld really knows how to run

6901 Monterey Road, Gilroy, CA 95020
Tel: (408) 482-5698

Hobby World of Gilroy is one of the largest indoor carpet track on the west coast, built on ultra smooth surface, so the quality of the track surface will be great. The crew also operates a very efficient race program, so should be an awesome event at Hobby World.

Attention track owners: We are still looking for host for ROAR Region 12 off-road events (both electric and nitro). If you're interested, please fax a completed sanction form to: 909-869-6535. If you would like more information, please contact me through the communication channels listed above.

Thank you ROAR Region 12 Members! We are working hard to make this an exciting year for ROAR Region 12 with more races to come! ■

2005 Fuel Off-Road Nationals

All I can say about the 2005 Fuel Off-Road Nationals this year is WOW!

Everything went as planned without a single major problem. Drivers started showing up on Sunday (3 days before they were allowed on the track), and were happy to just look around. Tuesday we ran four rounds of 10-minute heats, with about 50% of the racers having already shown up. Wednesday we got in 3 rounds of 10-minute heats, more racers now. Thursday started a little late with 100% of racers on sight we only got in 2 rounds of 5-minute heats (some were a little bummed), but was fair for all there.

Thursday night at the banquet with about 85% in attendance we served up some of the best fajitas in South Texas, with beans, rice and flour tortillas. Also for entertainment we had one of the leading Mariachi Bands in the US playing for our enjoyment (they were a little loud at times). Speakers at the banquet included Gabriel Gonzalez (City Manager), Delia Martinez (Chamber of Commerce), Jeff Lyssy (Parks Department), Jerry Lewis (President of GEARS Club), Jason Ashton and Jared Tebo. And we will never forget the courageous Carlton Eppes for taking on the duty of M.C. and putting up with all of us for 5 days!

Thursday practice all the guys you would expect to be fast, were fast. But when it came to qualifying that was another story. The track had some really rough sections that acted as equalizers, and gave some of the drivers a better shot at making a higher main. Also it put a lot of the better drivers in lower mains, for example Jeremy Kortz qualified 47th in 1/8 bumped all the way to the A-Main and finished 8th at the end of the day. Man that's what I call driving the wheels off a Buggy.

MT A-Main was no exception to the rest of the week. Jason Ashton looked like the man to beat all week, but electrical gremlins jumped on his truck for the Main. And ROAR crowned its first MT Champion, Jay Halsey (seems to be first to do everything). Dean Sexton coming in second 2 laps back, and Kris Moore in third 3 laps back of Dean. Jason not even finishing

out the full 45 minutes (38.57) still pulled out a sixth place finish. Jason was on rails for most of the race and looked unbeatable.

Gas Truck A-Main was as most expected from the beginning to finish. Jared Tebo got the whole shot on the grid, and didn't look back for the next 15 laps, during pit stops Ryan Cavaleri got the lead and held on till lap 40 when he relinquished the lead back to Jared. Three laps later Ryan had some major problems and was in the pits for several minutes dropping him back to 13th on the field. Jared kept on trucking for the next 67 laps to pull off another big win for AE. Pulling off the other podium spots were two other AE pilots Taylor James in second and Marty Korn in third. The track defiantly took its toll on some of the driver's rides with only ten of the fourteen finishing the full one hour main, and most several laps down.

1/8th Buggy WOW!!! Best finish in years!! With most of the race being a total blurr we will take it to the finish. Carlton calling the race with less than a minute to go with Mark Pavidis in first and Ryan Cavaleri in second, time running down quick as both drivers were coming to the table top, Mark took the safe jump as Ryan took the jump full wood. Mark landing and going through the land mine turn (named by Carlton) Ryan hit the table top and landed just inches in front of Mark. Down the short shoot and to the finish line both cars were wheel-to-wheel, tangled up and crashed (beating the horn). Marks car ended up on its lid (right

in front of a turn marshal) Ryan landed on his wheels and completed his last lap just 3 seconds ahead of Mark. Jared Tebo crossed the line in third 2 laps down from the leaders. Believe me if that next to last lap would have been the finish, we would still be looking at the tape trying to determine who won this one!

Thanks to all who made this race happen! Our sponsors; Byron Original Race Fuels, OS/Futaba, PantherTires, R/C Car Magazine, Kyosho, Avid Bearings, Kinetix, Team Losi, Racers Edge, Team Associated, Mugen Seiki, X-Ray and Fusion Motorsports. And a special thanks to the City of Harlingen, for doing everything you've done for the R/C industry over the last 6 years. And we could never had done it without our fearless leader Jerry Lewis and his partners in crime; Bob Prince, Carlton and Mary Eppes, Mike Partusch, John Chandler, Bryan Bowers, Randy Conway, Tony Sorimon, Roy Garza, Brian Senney, Tony Cepeda, Kevin and Laura Nunn, Jack and everyone else who helped along the way. And to complete this report a huge thanks to Dawn Sanchez from ROAR and all the racers who attended, to make this a race to remember for years to come!

For complete results go to www.gearsrc.org. SEE YA AT THE RACES!!!! Burt Bowers, RGV GEARS Club. ■
