

ROAR NiCd/ NiMH Battery Approval Procedure (2010)

This procedure is based upon all of the ROAR rules in section 8.3 of the ROAR rulebook, including but not limited to 8.3.1.1 through 8.3.10.

What you will need to submit after understanding and adhering to all rules covered above.

1. A minimum of (3) "virgin" cells. Virgin cells are cells that have not been "zapped" or otherwise cycled in a manner that causes the cell case to expand from such charging.
2. Manufacturer's Certificate of Origin. This document must come from the manufacturer of the physical cell, ie; XXYY Company of China. The document must list an authorized contact name, actual physical location and name of the manufacturing plant, a description of the product and who it has been sold to. This statement must be an original and must be signed by an authorized agent of the manufacturing facility. Please be advised that if you are having custom shrink/ labels applied to the cells, ie; Joe's Racing Cells, then this shrink/ label must be applied at the original manufacturer facility and attested to in the Certificate of Origin, along with a description of the shrink/ label. Other information as stated in ROAR rule 8.3.1.8 must also be present on ANY final label applied to the cell.
3. Proof of availability. Per ROAR rule 8.3.1.7, batteries must be available through hobby distributors and hobby dealers nationwide at a competitive price. Please provide documented proof that the product has been purchased, in what quantities and how it will be sold/ distributed. Copies of invoices with the seller and buyer are acceptable (you may black out the pricing information).

Deadlines for submission are January 1st April 1st and August 1st only with approvals issued thirty days later.

You must be a ROAR Industry Affiliate to submit product for approval consideration.

The ROAR Executive Committee has final approval over legality.

All products and documents are to be shipped to the ROAR Authorized Inspection Source listed below and must not incur any cost to ROAR or the ROAR Authorized Inspection Source by the stated deadlines.

Products will not be returned.

ROAR Authorized Inspection Source:
