August - September 2005

The Official Bi-monthly Newsletter of Roar

## Time to Nominate!

**It's that time again.** Put on your thinking cap and talk to your racing buddies. Find out who's ready to be a ROAR Region Director for ODD numbered regions, including Canada, and Vice President. If you know someone who's qualified and would be willing to handle the job talk to them about it and nominate them using the form in this issue of REVUP (page 3).

### NEW ELIGIBILITY REQUIREMENT for President and Vice President

The President and Vice President must have been a member in good standing for a year prior to election. Each must have had at least one year experience in one of the following prior to being nominated for office: Region Director, Class Committee Member, Executive Committee Member."

## ••• Announcement! •••

2005 ROAR Off Road Stock Nationals to INCLUDE Master's Truck as a class for competition. Please 'write in' on an available line "MASTERS TRUCK" with your frequency information. Available classes are: 2wd buggy, 2wd truck, 4wd buggy, Juniors buggy and MASTER'S TRUCK for this event.

### Recently Approved Bodies

- 1/10 .12 FUEL TOURING Protoform Stratus 3.1 (200mm) #1477-6.30.2008

### Recently Approved Motors:

#### Associated/Reedy

- Modified Associated/Reedy Yokomo 111604 Ti Worlds w/ or w/o SMC, Id br, 5mm blank, .35 comm.
- Modified Associated/Reedy Yokomo 111603 Ti Worlds w/ or w/o SMC, Id br, 5mm blank, .35 comm.

#### EPIC

- Modified Trinity Epic Shock Teardown w/EX (TM-14A) Blank.
- Modified Trinity Epic Shock Teardown w/Torque (TM-79-8) Blank.
- Modified Trinity Epic Shock Teardown w/Tri-Rotor (TM-67) Blank.
- Modified Trinity Epic Shock Teardown w/D2 Blank.

## 2005 National Championship Schedule

### Fuel 'Open' On-Road Nationals

Full Throttle Speedway—Kissimmee, Florida  
407.791.2321, defiante9@aol.com

## Presidents Column

Rick Wilson

We are in the middle of our Nationals season and are seeing places that ROAR can improve for its members. The entire ExCom is in middle of important and serious discussions about establishing a Nationals Management Team. This team would take complete responsibility for the running of the race. No longer would we have to deal with a lack of consistency in the management and handling of the event. We the ROAR officials can be responsible for making consistent and fair judgments for all 10 nationals. We would be in charge of the teching of the vehicles, scoring (with our own computer and scoring systems), qualifying, rules judgments and all decisions that could affect the outcome of the race.

In turn we can make sure the track hosting the race makes a fair amount of money for having the event. The track owners and administrators will no longer have to bear the impact (financial or judgmental) of hosting the race. ROAR will step up and take the responsibility to hosting the best nationals profits will be turned over to the host tracks.

We believe this will provide not only better racing but make more tracks interested in hosting nationals for ROAR. This will give us more and better options in putting the races at the best venues and the ability to move the Nat's around the US so all ROAR members have a chance to attend.

There is also discussion in some sort of qualifying system or at least mandatory attendance at level 3 events to be able to attend the Nationals. We want to make sure the racers who attend nationals have a level of experience to understand the rules and racing experience at a level 4 event.

The nationals need to represent the best ROAR has to offer. Situations in the past number have years have exposed the weaker aspects of the current system ROAR is proactively looking to grow from these experiences and move in the right direction rather than just more of the same. ROAR is working for you our members. We want you constructive input. We want to advance the fun in racing at every level from you local club races to the Nationals our premier events. ■

## Administrators Column

Fred Hohwart

We continue to send out renewal notices to remind you when your membership is expiring. These are timed to arrive about 2 weeks before your membership is due. Sometimes the post cards get lost in the mail, so check the address label on your *Rev-Up*, it always gives your ROAR number as well as membership expiration date. Send your renewal in directly to ROAR as soon as you get the reminder, or 2 weeks before expiration and you won't have any problem maintaining continuous membership. Waiting to sign up at the next race can often delay your membership 60 to 90 days, an inconvenience if you want to race elsewhere again after that race.

We continue to see the growth of ROAR, both individual memberships and ROAR Club affiliations and our financial condition continues strong as reflected by the financial data included in this *Rev-Up*.

These improvements are a reflection of the increased interest in competitive racing and the excellent club insurance program ROAR provides for those willing to put forth the effort to run a club race program. It also reflects the time and effort the Executive Committee and Region Directors have contributed to improve ROAR and make it a success.

Nomination forms are included in this issue for Vice President and odd numbered Region Directors, and Canada, to serve 2 years starting in January. A change to the ROAR By-Laws approved last October includes the following requirements for eligibility for the office of President or Vice President: "The President and Vice President must have been a member in good standing for a year prior to election. Each must have had at least one year experience in one of the following prior to being nominated for office: Region Director, Class Committee Member, Executive Committee Member." If you want to nominate someone for one of these positions, make sure they agree to accept and are willing to devote the necessary time and effort to the job so we can continue to travel the successful road of the last several years. The nominees will appear on the ballot included in the October-November election issue of *Rev-Up* and the results of the election will appear on our website

www.roarracing.com, when available, and included in the December-January *Rev-Up*. ■

## Competition Director

David Lee

I want to start by thanking the interested organizations for submitting bids for ROAR National Championship events for 2006. I received many submissions directly after my last report, so your response to my request was very good. The nationals bid process is functioning as you read this report and I am confident there will be some great events for your participation in 2006.

I also have received some interest in change by the membership. Some have asked for longer races in electric because the current type of battery has larger capacity. I have received requests to add new types of batteries, called LiPoly, to our racing venues. I have heard discussions from pro drivers that feel the best thing to do in electric racing is to somehow slow down the cars. There are some interesting points to support each of these topics. A comparison of the pros and cons of all of these points is required to determine the best direction ROAR should take regarding each topic.

I will start with the LiPoly battery. ROAR has received a letter from a product supplier of these batteries, so dialog has now begun to address all of the issues. Let me list a few of them for you that I am currently aware. First is the discussion of safety related to our application of the product. The batteries that I have seen and used consist of a jell contained in a flexible, possibly fabric, covering. I have personally learned that overcharging these cells lead to a swelling of the battery, and I am sure that the covering would eventually rupture. I have been told that the jell will immediately ignite into fire once exposed to the atmosphere, so it appears to me that this battery must be evaluated carefully. We need to determine if the battery can be safely charged in a way that supports the need of "quick charging" in preparation for a race. We also need to determine if the battery can be supported and protected in the car so that a driving accident will not puncture or rupture that covering, exposing the jell to the atmosphere. That is what I know or have been told so far. There may be more safety issues like this that will be identified in the future. But please also consider that the current round cells and the LiPoly cell do not have the same voltage rating. It doesn't appear that combining these two battery types in the same race is viable. More later.

The next topic is to consider lengthening the electric races. There are some good things related to doing this, but it would also create other problems. The Competition Director considers what is good for racing. I have observed and competed in many on-road and oval events and offer this to the discussion.

We can adequately determine a race winner within the current time frames allowed for each class. As it stands now, there are only 3 people out of 10 on the same lap at the end of a stock oval main. We are running 30 laps in stock touring car on-road mains. That also is enough time to validate a winner. The other side is that increasing race lengths produce a time issue for the host to finish the program. The point here is that all the points must be considered and compared to establish what is best for all involved. That includes the drivers, the racing equipment, the host of the event, and ROAR.

Finally, there are comments that the cars are too fast. Radar speeds in modified touring and modified 1/12 scale on carpet with over 70 feet straights are in the mid to high 40 MPH range. Stock speeds in the same tracks are now at the mid 30 MPH range. I remember the same measurements in 1998 had the modified cars straight lining at the same speeds currently attained in stock on road racing. People that I respect have now come out and said this is too fast. That there are few people in the world that are capable of consistently controlling their cars at these speeds. And there isn't any place for the new, novice, or junior driver to compete because they are not ready to go that fast, irregardless of the car. I will be observing this situation very closely and willing to take opinions from the membership if this situation is true, if it is an issue, and what can be done to bring electric on-road racing into a window of safe, reliable and competitive speeds.

Good luck to all as we move to the last half of the 2005 racing season. I look forward to meeting and conversing with all members at the upcoming events. ■

## Do you know someone who can do a good job for ROAR? NOMINATIONS MUST BE IN BY SEPTEMBER 15!

Below is a nomination form for the upcoming ROAR election. Please fill in the nominee for the appropriate position. Once the form has been filled out, mail it to the ROAR Office. These positions are all on a volunteer basis and are very time consuming. Nominations for Region Directors must be made by ROAR members within the Region. Nominee must be agreeable to serve, should he/she be elected, in advance of nomination.

Any current member may nominate a candidate for Vice President. Region Director Nominee (odd-numbered Region Directors Only) Regions 1, 3, 5, 7, 9, 11 and ROAR Canada.

### Nominee for Vice President:

Region #: \_\_\_\_\_  
Name of Nominee: \_\_\_\_\_  
Nominee's ROAR #: \_\_\_\_\_ Exp: \_\_\_\_\_  
Nominee's Address: \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_ Zip: \_\_\_\_\_  
H Phone: \_\_\_\_\_ W Phone: \_\_\_\_\_  
Background & qualifications of Nominee: \_\_\_\_\_

### Nominated by:

Name: \_\_\_\_\_

White, 4 DNF Dean Isaac, 5 DNF Alex Frank, 6 DNF Burt Kos., 7 DNF Clarence Rose, 8 DNF Jimmy Houser, 9 DNF Vidal, 10 DNF Quincy Davis.

Their second event was a mammoth turnout on 7/3/05. It rivaled the largest events in the country. It is clear that the northeast is ready to host racing fuel on-road events on a national level. Here is a report provided by the club: The day started out like any other and turned out to be quite different in deed. As I arrived to the track roughly 15 tents already set up and guys working on their cars already greeted me. The track was set up but just needed to be blown off and sprayed for traction and give the track a bit of bite. As the day moved more and more cars truck vans and all other means of transportation showed up. We had visitors from Maryland, Virginia, Boston, and as far as Carolina and a few Floridians. The day turned out 105 racers for the day and an actual number of 101 racers. The day was amazing and turned out to be a scorching day as well as one hell of a race day. Each and every main seemed to have an A main quality about it. Even the electric turn out which is normally very low was a bit better and sustained the same characteristics as the fuel powered big brothers. The event prename the July 3rd blow out was more than anyone had expected. We carried a total of 11 heats in all. So many racers that data entry was now a fulltime job and took away from the day's event but that was the only downside. The evening topped off by trophy presentations and fire works over the water as a few of the racers and our local members stayed and chatted during clean up. The entire event was a total success for RC, which is the main reason the club was formed. FANATIC REMOTE RACERS AND BROOKLYN HOBBIES hosted one serious RC extravaganza and will be doing so with every event scheduled. Hope to see even more people at the next blast.

**Nitro Touring A-Main:** 1 52 15:06.86 Steve Sohl, 2 52 15:14.71 Vincent Jackson, 3 49 15:03.10 Robey Calloway, 4 35 15:11.44 Eric Jones, 5 DNF Craig B, 6 DNF Mikey Mike, 7 DNF Mike Malinconico, 8 DNF

Richie Torres, 9 DNF Bill Hamlin, 10 DNF Roland Shao.

**1/8 Scale A-Main:** 1 60 15:10.10 Alex Frank, 2 59 15:09.81 Pooh White, 3 57 15:03.14 Charlie Williams, 4 57 15:06.89 Taureen Bennett, 5 48 15:04.78 Richard Siriano, 6 35 15:13.53 Quincy Davis, 7 DNF Jamie Coraddo, 8 DNF Joseph Wright, 9 DNF Renato Dias, DNS Vincent Jackson.

RC Madness hosted the Electric Off-road Regionals on June 25 and 26. As usual, Chris Marcy produced a flawless event. The track layout was well thought out. RC Madness is just simply one of the good places to race. Double A's were run across the board. Mark Westerfield is now won 2 consecutive modified 4WD Regional Championships. Rob Meyer was a force all weekend and won 3 of the 4 classes he entered! Some notable people in attendance were 1/12 National Champion Mark Strasnick, Eric Desrosiers/AE, Kevin Hetmanski/Car Action, Jason Brolet/Extreme RC, Todd Anderson/RC Excitement. Here are the results:

**A-Main Stock Truck:** 1 Eric Desrosiers 20, 2 Scott Furtado 16, 3 Rob Meyer 15, 4 Mark Strasnick 13, 5 Sean Smith 10, 6 David DeOliveira 8, 7 Steve O'brian 7, 8 Fast Eddie\* Robinson 7, 9 Joe Marino 7, 10 Chris Proctor 7.

**A-Main Stock Buggy:** 1 Rob Meyer 19, 2 Eric Desrosiers 19, 3 Scott Furtado 15, 4 Sean Smith 14, 5 Steve O'brian 13, 6 David DeOliveira 9, 7 Joe Marino 8, 8 Mark Westerfield 5, 9 Nick Lagrega 5, 10 Sean Norgaard 3.

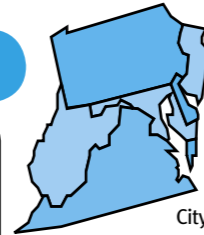

**A-Main 4WD Stock Buggy:** 1 Evan "Squirrel" Shelansky 18, 2 Sean Norgaard 18, 3 Cory Macmaster 18, 4 Mark Barletta 14.

**A-Main Modified Buggy:** 1 Rob Meyer 19, 2 Max Kim 17, 3 Sean Smith 15, 4 James Schlick 12, 5 Mark Westerfield 11, 6 Scott Robert 11, 7 Chris Proctor 8, 8 Jason Brolet 7, 9 Dan Laurence 7, 10 Eric Desrosiers 3.

**A-Main 4WD Buggy Modified:** 1 Mark Westerfield 18, 2 Jay Livingstone 17, 3 Carissa Figelski 15, 4 Dan Laurence 14, 5 Scott Robert 13, 6 Kevin Hetmanski 11, 7 Paul Ethier Jr 8, 8 Ryan Archambault 7, 9 Evan Shelansky 4, 10 Reinaldo Torres 3.

**A-Main Modified Truck:** 1 Rob Meyer 19, 2 James Schlick 17, 3 Ryan Achambault 13, 4 Sean Smith 12, 5 Eddie Robinson 12, 6 Eric Desrosiers 10, 7 Chris Proctor 8, 8 David DeOliveira 8, 9 Steve OBrian 7, 10 Dan Laurence 4.

**1/10 Stock Electric Sedan:** Dan Hartman  
**1/12 Stock:** Heimbort Olmos  
**4-Cell Stock NASCAR:** Bill Osborn

Since our last *Rev-Up* article there has been 2 Regional Championship events and the 1st leg of the Fuel Off-Road Championship Series Regional Event. Steel City Hobbies hosted the Carpet Oval Regional and the Fastlane R/C Club hosted the 1/10 Fuel Sedan Regional.

I'm pleased to announce that Craig Rawling has been appointed the Off-Road Region 2 Director. Craig and I will work together in coordinating events with Craig focusing on the off-road venues. Craig is a seasoned R/C enthusiast and his volunteering for the position is much appreciated. Both Craig and his dad are committed to maintaining the highest level of off-road racing throughout the region.

Potential Carpet On-Road National in Region 2 for 2006. The Track in Gaithersburg MD has put in a request to host the event. Bob VanWagner and Mimi Wong have prepared a comprehensive and well plan package to put before the ROAR Nationals committee. A decision will be made sometime during the fall of 2005, lets keep our fingers crossed.

10 Dan Laurence 4.

### Remaining schedule of 2005 events:

September 10-11 2005: ROAR NERCAR Club, Level 1, NERCAR.  
September 18 2005: ROAR BARCARC Club, Level 1, BARCARC.  
September 29-October 2 2005: ROAR Paved Oval Nationals, Level 4.  
October 1-2 2005: NERCAR Trophy Race, Level 2,

### Race Report: Carpet Oval Regional

On May 22nd, Steel City Hobbies hosted the 4-Cell Stock NASCAR Region 2 Carpet Oval Regional. To enhance the overall turnout Steel City sponsored other classes of racing which include, stock mini truck, 19T sedan and modified stadium truck. 4-Cell Stock NASCAR attracted 3 full heats of racers. Oval racing, both dirt and carpet is one of the largest forms of racing throughout the region. Special thanks to Steel City Hobbies for stepping up this year and returning a ROAR titled oval event to the Region. Check out their website to see what upcoming events they have scheduled. Mike Rooney of Steel City has a great deal of experience in marketing and promotion outside of the hobby industry and has incorporated this experience into further promoting the hobby beyond the walls of his hobby shop. Wish I lived closer. The results of the event are as follows:

**4 Cell Stock NASCAR A-Main:** Bill Osborn, Bobby Scherff, Adam Martin, Mike O'Brien, Randy Ciccone, Joel Biro, Matt Kirby, Ronald Housman, Clayton Anderson, Eric Hutkay.

**19 Turn oval 4 Cell A Main:** Jeff Carapellatti, Jeff Patch, Matt Kirby, Danny Demyan, Tim Dilg, Jimmy Daugherty.

**Stock Mini Truck Road A-Main:** Janice Himes  
**19 Turn Sedan A-Main:** Frank Dempster, Tony Palmerine, Rob Walbrown, Mike Rooney, John King, Nick Eger, Dennis Maitland.

**Mod Stadium Truck A-Main:** Danny Demyan, Janice Himes, John Dailey, Tony Palmerine, Josh Davis, Mike Rooney.

### 1st Leg of the Fuel Off-Road Region 2 Championship Points Series: (Reported by Craig Rawling, Off-Road Director)

Well region 2 is shaping up to be a series to talk about. Region 2 has the best drivers in the east coast. Pasadena held the first leg of a three leg series race. Everything went very smooth and no problems to report. The 10th scale class was great to watch. Kevin Ganoe again put on a great show. Todd Lewis was right behind on Kevin's tail until he had car troubles. The 1/8 scale racing was very close. Chris Crews was first and Jamie Grayek was close behind and shaping up to be a great race. Chris Crews had car troubles and Jamie went on to a first place finish. Monster Truck was on fire. Anthony Wilkins drove the pants off of his Hot Bodies to a first place finish. Want to thank Tony West and Binky for putting on a great show. Want to also thank TQ Fuel, Embods and Tony Screws for sponsoring

NERCAR.

October 9 2005: ROAR BARCARC Club, Level 1, BARCARC.  
October 22-23 2005: ROAR NERCAR Club, Level 1, NERCAR.  
October 30 2005: ROAR BARCARC Club, Level 1, BARCARC.  
November 3-6 2005: ROAR Fuel On Road Open Nationals, Level 4. ■

the series. Well off to round two at the tiltyard. Overall results after the first leg are as follows:

**1/8 Buggy:** Jaime Grayek 100, Tony West 99, Binky Griffon 98, Micheal Odonnell 97, Anthony Wilkins 96, Kelpby Roberts 95, Jason Miller 94, Chris Crews 93, Craig Rawling 92, Brian Miskokzi 91, Vincent Barret 90, Doug Washington 89, Chris Codoley 88, Bob Chartos 87, Antwaan Mosley 86, Wayne Miller 85, Jasen Wyche 84, Mark Christman 83, John Warrington 82, Chris Perry 81, Chris Gibson 80, Lloyd Tiger 79, Jay Miller 78, Bubba Lee 77, GT Eddie 76, Rohit Katwia 75, Jack Honeycutt 74, Warren Govan 73, Russell Williams 72, Saint Arpus 71, Curtis Benko 70, Tony Delk 69, Jeffrey Kinnamon 68.

**Monster Truck:** Anthony Wilkins 100, Antwaan Mosley 99, Warren Govan 98, Jasen Wyche 97, Chris Perry 96, Curtis Benko 95, Kevin Parlet 94, Victor Giardina 93, Craig Rawling 92, Ryan Mccord 91, Richard Sains 90, Tony Delk 89, John Greer 88, Mike Branham 87.

**1/10 Gas Truck:** Kevin Ganoe 100, Todd Lewis 99, Bob Moore 98, Brian Miskokzi 97, Dave Mcewwn 96, Tony West 95, Russell Williams 94, Stephen Warrington 93, Saint Arpus 92, Binky Griffon 91, Jasen Keller 90.

**1/10 Fuel Sedan:** Coverage of this event will be included in the next *Rev-up* publication and e-mail.

### Confirmed Events:

April 2, 2005: Carpet On-Road Regional, RC Track www.rctrack.com.  
May 22, 2005: Carpet Oval Regional, Steel City Hobbies www.steelcityhobbies.com.

June 25-26, 2005: 1/10 Fuel Sedan Regional, Fastlane, 1/8 East Coast Championship www.fastlanerc.com.  
July 23-24, 2005: 1/5 Scale Regional, Fastlane www.fastlanerc.com.

## REGION 4

**Region Director:** Bill Fraden  
9711 Sharing Cross Dr., Jacksonville, FL 32257.  
904.268.1948, wfraden1@aol.com

**Co-Assistant Directors:**  
Izzy Santiago and John Malin  
**On-Road Director:** John Grant  
**Off-Road Director:** Jeff Keeton  
**Oval Director:** Ken Holmes  
**Nitro On-Road Director:** Jarrod Pilone  
**Florida**

no motors submitted it can't be a legal class. If we need to change the way it's wound then lets do it, shorter (regular) shaft again do it. Just how long does it take to have the manufacturer to submit a motor for approval. It's been several years already. You got a solution let me know.

**Batteries:** Everyone got new batteries coming out. Our year process works fine to me—it's not the battery of the month. Now everyone complains about the batteries being bigger and it's ROAR's fault. Its our specs—wrong it an international standard. Look the R/C business is a lot smaller than the electric tool business. If the batteries are made for the many electric tools and the batteries don't fit there battery holders who fault is that. Who going to buy the most batteries—electric tools. Are they going to tell them to re design there tools to fit there batteries—I doubt it. The Battery company are going to have to re design them. When I first start racing we were using 1200's and now legally there is 3300 in the same case. With the Li-poly batteries coming just how long is it going to be before things are really going to get thrown into a spin?

Who's coming to Florida- everyone shortly for two of the biggest ROAR Nationals. Coming up September 3rd and 4th Speedline is hosting a warm-up race. Then on October 6th-9th it's the Nationals at Speedline (Electric On-road). Coming up in November 3rd-6th is the Fuel Open On Road Nationals at Kissimmee.

Dateline "The Florida On-Road Gas State Series" has a new website, <http://www.forgass.com>. They will also be celebrating their 30th racing season in September. Last year was a record breaker for attendance.

### The 2005-2006 schedule is as follows:

September 24th-25th—Lakeland  
October 29th-30th—Kissimmee  
December 10th-11th—Miami  
January 14th-15th—Fort Myers  
March 4th-5th—Lakeland  
April 1st-2nd—Kissimmee  
April 29th-30th—Fort Myers (Sour Grapes/trophy presentation).

Dateline Stricklands (Daytona Beach) for the Florida State Electric On-Road Series. Where else but the famous place for speed should the Series celebrate our 25th anniversary. They also started a hall of Fame with the first 4 members being inducted.

Bill Fraden has been with the series since 1981. In 1995 he won the Digger class and in 1996 the Legends class. He's also been the region director for the past 14 years.

Troy Schafer has also been a pioneer with the state series. In 2000 he was the 19t modified class Champion.

It's Summer time here in Florida and Mother Nature is rearing her ugly head early. Lucky for us the On-Road Nationals are being held later in the year than usual. Something else I've noticed in the last 6 months our Florida ROAR membership is going down from last year. What I think is the problem is the Oval Series. They are not a ROAR sanctioned series this year and I doubt they will. All the other series are affiliated and growing. The other thing bad right now is the weather and having to possible canceling a local or state race till later. There are some that will never do anything with our organization—I just went to his website a few weeks ago and read the statement. Is it about time to let it go (1986) or remember 1995?

I'm going to stray a little bit more than usual by bring up some subjects the On-Road committee has been discussing for awhile. (factory drivers, 19t motors and batteries). Before we go further these are my personal beliefs not ROAR's. We have been discussing this for several months.

**Factory Drivers:** having been around for along time I've seen a lot. Trying to describe a factory driver good luck. We've also got 50% guys and many small R/C companies and also hobby shop sponsored. How do you get the list? Are you going to get the complete list- no ringers? I doubt it. A lot of races I've been to they have ringers. I'd say the 50% guys only get some things at just under what everyone else can buy them for. Or maybe you get some stuff free and have to pay 50% for others. Remember 50% is the suggested retail prices not the price you can get it on the street. So you can see the dilemma on trying to come up with a solution.

**19T motors:** Well one company started the motor- Trinity, Thank you. Then ROAR made the rules for his motor. To my knowledge it has never been submitted for approval. If it was we would not have any problems (but it's not). I'm speaking about the on-road/off-road motors with 24 degree fixed timing. Since that time others have come out with motors with either a different type of wind and or a regular shaft. What to do? I say by January 1st 2006

He also been a Class director and the series director.

Bob Hall is a multiple times champion in 1990, 1991, 1992, 1996, 1997 and 1998. He was also the state series director until 1998.

Our Honorary Member is Eddie Herrmann. He was one of the first pioneers to help establish this great series. Back in the beginning he also help save the series after our big meeting in Orlando. He won the Legends championship in 2000. He passed away (3 years ago in September) and left us our dream to continue this great series. Both his wife Linda and son Butch came down for the day and accepted his award. Soon we hope Butch will again be racing in the series.

Something new again to the series was a special race with the 1/10 pan cars (stock-6 cell). Maybe we'll see this class return in 2006?

With the wild weather we have been having lately we held the induction ceremony around 10:30. About half way thru it started with the sprinkles from above. That didn't last to long about a hour. We got one complete round in before it started raining again. So we set up for two qualifiers on Sunday and the mains. Funny thing happened Sunday morning. Leaving the restaurant at the hotel and it was pouring. Go down the road to the track and it's never rained a drop. Anyway Sunday went on without a problem. We also picked up a new series sponsor as they showed up all the way from Atlanta GA Team Much More. Here are the A main results:

**Touring Stock A-Main:** Mark Burt, Ben Griffin, Michael Abraira.

**Novice Touring A-Main:** Austin Harrison, Kyle Calking, Larry Marshall.

**Touring 19T A-Main:** Ben Griffin, Rob Michael, Steve McNichols.

**Touring Mod A-Main:** Paul Wynn, Jeff Brown, Greg Hunsinger Jr.

**1/12 19T A-Main:** Eddie Shaffer, Charles Bone, Hector Garcia.

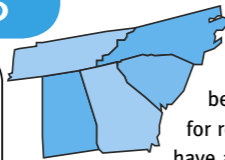

**1/10 GTPA-Main:** Tony Padilla, Mike Bean, Bill Fraden.

**Dateline Ocala:** Someone we have not heard from in a long time ORCCC. It looks like Danny Mayer got the city/county to give them a section of the Ocala Regional Sportsplex for there new home. On April 30th they hosted a free race with 25 old friends coming out to race. They are presently working on the electrical system to provide power for everyone. The track also has an irrigation system to help things out. I always enjoy reading the reports from Bonita Hamilton- keep them coming.

Also In Ocala- Jacks Hobbies will be hosting his last On-road state race on July 16th-17th. He's sold the building and the track. His new shop will not have a track- that's ashame. I've enjoyed racing at his track these past two years. Until next time. Have Fun-it's Racing time. ■

**Alabama • Georgia • North Carolina  
South Carolina • Tennessee**

The Paved Oval Nationals are in Region 3 this year at Blountville Model Speedway in Blountville, TN on September 30-October 2. Contact Dale Benton at drdaleb@charter.net or visit their site at [www.racebms.com](http://www.racebms.com).

Still looking for bids for paved and carpet on-road and the electric off-road regionals. Any track interested should contact me as soon as possible.

Coming up in November are elections for odd number regions. I am not running for re-election this time but I do have a couple of people interested in the position. I still don't have a firm commitment from either but hope to soon. Anyone else interested should make sure they are nominated and get on the ballot. I wish I had more time to devote to this job but I just don't. I would however be interested in remaining as an assistant director to whoever wins the election.

I would like to welcome RC Motorsports as the newest Region3 sanctioned track. RC Motorsports is located near Nashville, Tn and have carpet oval, on-road, and off-road tracks. You can find them on the web at [rcmotorsportsracing.com](http://rcmotorsportsracing.com). ■

## REGION 5

**Region Director:** John Kohan  
jkohan@columbus.rr.com  
**Illinois • Indiana • Kentucky • Michigan  
Ohio • Wisconsin**

**What's Going On In The Region:** Well the Region continues to grow in membership & track affiliations. This year we have 4 Regional races scheduled/run and 2 state races scheduled. I'm currently working in a 5th regional and two more state races. I want to thank all the members and track affiliates for their continued support.

**Why ROAR:** Why ROAR? I get this question almost every time I'm at the track. It maybe "Why should I join ROAR", "What has you want to be Region Director", or "What has ROAR done for me".

Below is a response I made some time ago on the Internet, with a few edits, and I hope it gives you an understanding of why all of us should care about ROAR.

The one question that always comes up is "What do I get for \$30". If you look at the car/truck/buggy that you race, you see what you already have. Also every day you spend at the track you see what you already have.

The cars/trucks/buggy's that we race all (99%) based upon ROAR specifications. This helps level

the playing field so that racing is as fair and balanced as possible. If you want to see what could happen to racing without rules, just look at the Monster Truck class. It is a fun and growing class but is no consistent specifications between trucks or how to race them. (Although ROAR now has a set of proposed rules through the help of many knowledgeable racers).

Once you get to the track you benefit from ROAR. You know the rules (Some call them guidelines) on track specifications and what is expected of you. I'm sure you have traveled to race and it is a nice feeling to know what to expect when you visit a new track for the first time.

So far you have benefited in equipment and race day programs and have not spent a dime. Those of us who do join carry the monetary burden for those who don't join. It is not an issue to me to carry this burden because I fully understand where racing will be in a very short time without rules.

Once racers understand the greater good that ROAR is providing, for the most part, they are happy to join and help this hobby/sport we all enjoy. With the \$1000's we have invested, not spending \$30 to support racing is losing focus on what really matters.

I have found that ROAR is what you want to make of it. If you want ROAR to be a pain, then sit home and

stress about every little rule in the book. But if you want to support the hobby, help build and maintain a fair set of rules, or you just want to get involved, then ROAR is there to help & support. It takes effort but without the people behind the tracks, the race directors, local clubs, Sanctioning Bodies, and people that just enjoy helping, we would all be spending our weekends doing something else.

Race fee \$10  
Weekly ROAR membership (\$30/52) \$0.57  
Racing with friends all day Priceless

ps, I never even said anything about the ins, rev-up, or help with sponsorships.

**2006 Regional's:**  
All right, it's time to get the 2006 regional races scheduled. I would like to begin to see the first set of "Bids" in by November and hope to have races scheduled Sometime in December.

These races don't schedule themselves, so please lets get those bids in. If you don't run a track, ask them to hold a regional. Feel free to lean your help if it will make it easier for them. These are your races so lets have them were YOU want! Remember ROAR gets \$0 for regional races, the host track keeps 100% of the entry fees. ■

### Here are the 2005 scheduled ROAR Region 5 sanctioned events:

Race	Sanction No.	Club	Date
Oval Carpet Regional	05-05-03	Halo	3/11/2005
Electric Off-road Regional	05-05-01	CRCRC	10/8/2005
Gas Off-Road Regional	05-05-02	JCP	8/13/2005
Paved Oval Regional	05-05-04	Hobby Hub	6/10/2005
Michigan State Championships (Off-Road)	05-05-05	Redline Racing	9/17/2005
Illinois State Off road 'Championship (Electric)	05-05-06	Redline R/C Raceway & Hobbies	10/29/2005

## REGION 6

**Region Director:** Ed Hill  
P.O. Box 7401, Jackson, MS 39282  
601.924.6416;  
fast@smallcarsunlimited.com  
**Arkansas • Louisiana • Mississippi**

Well, well, well. It's time to write another Rev Up report. I would like to take this opportunity to thank Fred Hohwart for the little reminders that he sends me. It makes me look like I can remember EVERYTHING! HA! Thanks Fred.

All Mississippi State Championships were scheduled in June this year. Small Cars Unlimited Ran its first race on its first racetrack in June of 1988. Do the math - that's 17 years! So the State Champs were also an anniversary celebration. To the racers who have come and gone, and especially the racers who have never left, THANK YOU FOR MANY PLEASANT MEMORIES.

June 11, 2005, The Magnolia (that's Mississippi to you Yankees) State ROAR Off Road Championships were held at Small Cars Unlimited in Jackson Mississippi. It was a typical Southern Summer day. If you didn't bring shade to pit under, you should have brought some sunscreen (maximum strength).

### Race results for this event are as follows:

**Stock Truck**—TQ, Brenden Nolan; 1st Brenden Nolan; 2nd, Jody Jordan; 3rd, Bret Hemphill.  
**Modified Truck**—TQ Alan Jenkins; 1st, Cliff LeBlanc; 2nd, Jody Jordan; 3rd Shane Martz.  
**Stock Buggy**—TQ, Terry Vaughn; 1st, Tommy Banas; 2nd, Brandon Tucker; 3rd, Terry Vaughn.  
**Modified Buggy**—TQ, Terry Vaughn; 1st, Terry Vaughn; 2nd, David Bates; 3rd, Josh Jones.

**B N D Raceway**  
1516 Keyser Ave., Natchitoches LA 71457 USA

**Rick's RC**  
2353 Airport Rd., Hot Springs AR 71913 USA

**Monster Truck**—TQ, Mitch Saxton; 1st, Mitch Saxton; 2nd, David Reed; 3rd, David Castle.

**1/10 Nitro Truck**—TQ, Zachary Harper; 1st, Zachary Harper; 2nd, Ed Matlage; 3rd, Jeremy Jones.

**1/8 4WD Nitro Buggy**—TQ, David Castle; 1st, Wesley Harper; 2nd, Daryl Barnes; 3rd, David Castle.

June 25, 2005 was the scheduled date for the Magnolia State ROAR Paved Oval and Paved On Road Championships. The weatherman said that we were going to get wet. The day arrived, dark and gloomy. Toni started cooking breakfast for everyone and we all felt better. I told everyone, that if all we did was eat, talk about racing and reschedule the race date, it would still be a good day. When the time came to start racing, we were still dry. At the drivers meeting, I said that I would be pushing everyone to be ready early. If we were to get rained out, I wanted every racer to get at least one qualifier. After the first qualifier, we tried for a second set and completed it. When we completed the third qualifier we were all surprised. We set up for the Mains in record time. The day looked like night. We even turned on the lights. When the Mains were complete, I asked everyone to pack up first, and then come to the store where we would hand

ejoslin@yahoo.com; www.wolfpackracetrack.com

out the awards. I also suggested that everyone look up at the threatening sky and thank God for letting us finish the day. GOD GOT A STANDING OVATION. Everybody clapped. Kool! Five minutes after everything was done (including emptying the trash cans) the rain came down in buckets. In Mississippi we call this a "frog drowner".

### Race results for this event are as follows:

**6 Cell Stock Oval**—TQ, Jimmy Flack; 1st, Chris Tunstall; 2nd, David Wilson; 3rd, Mike Seymour  
**Oval Nitro Trucks**—TQ, Jody Jordan; 1st, Milton Kelly; 2nd, Jody Jordan; 3rd, David Castle.  
**1/12 Stock On Road**—TQ, Bret Hemphill; 1st, Bret Hemphill; 2nd, Mark Cook; 3rd, Chris Cook.  
**Stock Sedan**—TQ, Jason Lutz; 1st, Terry Vaughn; 2nd, Brandon Tucker; 3rd, David Bates.  
**Modified Sedan**—TQ, David Bates; 1st, David Bates; 2nd, David Hill; 3rd, Terry Vaughn.

We had so many sedans this year that we may consider having a Sedan only Championship next year. Let's just wait and see. If individual lap times or any other race details are desired, these can be seen on the Small Cars Unlimited website. www.smallcar-

sunlimited.com Click on race results and pick the race you want.

These two events were very special to me. Not only was the anniversary special, but the fact that NO ONE GOT UGLY made the day extra special.

In the last *Rev-Up* issue, I welcomed Rick's R/C in Hot Springs Arkansas to our region. Recently, Rick has had a heart attack. He is on the road to recovery. I know that we all wish him to get well quick! On top of his fight to recover, Rick now has another problem to contend with. Rick's R/C store was broken into and burglarized. I understand that he lost quite a lot. I know the feeling Rick, it has happened to me. Makes you want to go out and hurt someone doesn't it?

I think that someone must have spilled some "R/C enthusiasm" seeds in Hot Springs Arkansas. Wolfpack Race Track (named after the local football team) is up and running. These guys really seem to have it together. They have a great looking track, an auto count system, and a fantastic gang starting devise. Check out their website. [www.wolfpackracetrack.com](http://www.wolfpackracetrack.com)

In the last *Rev-Up* I warned everyone that I was going to do some "arm-twisting" in hopes of having State Championships in Louisiana and Arkansas. Before I could check with anyone, the powers to be at the Wolfpack Race Track in Hot Springs Arkansas submitted their bid for the Off Road State Championships. The paperwork

has been approved and the event is scheduled for August 20, and 21, 2005 with open practice on Friday August 19, 2005. This event will be titled the 2005 ROAR Razorback State Off Road Championships.

Track owners BEWARE. I would like to see more State Championships. Paved Oval? On Road? Louisiana Off Road? I am still in arm-twisting mode! Yours in racing, Ed Hill

**Promotions Note:** I would like to take this opportunity to thank Ed Hill for wonderful work in region 6 and hoping ROAR never loses such a hardworking contributor again! Dawn ■

I am still requesting bids on any level 2 or 3 event for our region. I need bids on all races and scales. If you wish to submit bids, please do so ASAP. Racers, talk to your tracks to see if they would be willing to host an event.

Once again it is time for odd numbered regions to

select running candidates for region director. After holding this position for the last 4 years, I am ready to step aside. I would be willing to continue as an assistant director if the newly elected director wishes to have an assistant. I believe our region needs this because as I live in the northern part of our region, the

southern most parts of Texas don't receive the needed representation they deserve. So racers, select someone who is a member, is willing to serve, and has the time to dedicate to the position. So, till next time, see you at the races! Gary O. ■

several rainstorms I arrived at the track to very few racers and rainstorms that hadn't let up all day. So the first 3 rounds of qualifying was a wash. Sunday

proved to be very different, with sunny skies and no rain in sight. After 3 rounds of qualifying, the tq's were Mike Swauger in 1/10 sedan and in 1/8 4wd and Heinz Meyer in 1/10 4wd. Monday started with lower mains and some very intense racing.

But mother nature showed up again, starting with showers, then the track crew drying the track, and then she decided that no other races were to be ran by producing a downpour. Main events up to the b mains were run by then, but daylight was running low by then. The A main events were decided by qualifying order and awards were passed out. With the level of racing being this good at the Biggie, I can't wait to see the Sedan Nats. The racing ought to be very good.

Hello racers, On May 28th, I ventured south to the DFW area to watch the running of the 28th Annual Texas Biggie. The event was held at the RCRCNT site in Rendon, TX. After driving thru

Classic will be held Sept 9-11 at A.R.C.O.R. in Albuquerque, NM. Sign ups are due by Aug 27th. No entry without payment. \$35.00 for the first class and \$15.00 for each additional class. No 1/8 scale buggy or Monster Truck will be run this year. For more information visit our website [www.arccoraceway.com](http://www.arccoraceway.com) or call Christina at 505-307-2035.

Intermountain R/C Raceway reports: The Utah State On-Road Championships were held July 16th. The weather was hot with the track temperature reaching 150 degrees +. The track was hooked up with the new surface and everything had a fresh coat of paint.

Jeromy and the Track Crew done a fantastic job with the track and running the races. They deserve a big thanks.

**Here are the results**

**Stock Sedan A-Main:** 1. Jim Rose TQ, 2. Bill Pendleton, 3. Jessie, 4. Jerrit Knight, 5. Carl Hynhman,

Hello Region 10, I have to apology for the Web site being down. I ran into some trouble with the host site and hope to have it back up and running by the time this article is printed.

I have received reports from only 2 Region 10 Tracks. If you do not see anything about your track and would like to, ask your track to please send in a report to me. I can not report what I do not know.

A.R.C.O.R. reports: The 10th Annual Tumbleweed

6. Keith Daugherty.

On June 24-26; The Region 11 Off-Road Gas Championships were held in Wenatchee, WA, one of the premier facilities in the Northwest. Home of RCCCW, The Radio Control Car Club of Wenatchee. The Wenatchee area is a great place to hold a regional event due to its location and weather. The track is built inside an old bumper boat pool, which creates a unique and safe racing environment.

Marcus Neuspeed from Spokane, WA, TQ'd Gas Truck and went on to win the 45 minute main event followed by Taylor Peterson, Tiffany Dunlap, Randy Nolan, Jordan Hestness, Chris Hart, Craig Hamilton (with a JATO!), Jeremy Friesz, Reggie Tongue and Randy Sides in the A-Main. Jordan Hestness and Craig Hamilton were the bumps from the B Main, great job guys!

Mike Dana TQ'd the 1/8 Scale Buggy Class and Marcus Neuspeed came through for the win in another grueling 45 minute A-Main. Mike Stanton was second, followed by Wade Lammar, Garrett Smith, George Templeton, Jordan Hestness, Mike Phillips, Ray Villeneuve, Mike Dana and Randy Nolan. Mike Phillips and Randy Nolan were the B Main bumps; Randy Nolan and Chris Hart were the C Main bumps. Great job Randy!

We also ran two exhibition classes; Super Monster Truck and 1/8 Scale Stadium Truck. Our Super Monster Truck Class follows the Northwest Championship tour rules; basically no Truggies allowed. Ryan McCrery TQ'd and won the 45-minute main event with Roy Pitchlynn, John Collins, Ron Anderson, Craig Hamilton, Torry Hadley, James

Russell, AJ Tubb and Jay Harrison in the A-Main.

In the 1/8 Stadium Truck Class; Mike Dana TQ'd with Marcus Neuspeed taking the win in another 45 minute main event with George Templeton, Corey Ecalbarger, John Collins, Mike Dana, Reggie Tongue and Ron Auger in the A-Main.

Many thanks to Jay Harrison, Corey Ecalbarger, Jay Campbell and the rest of the RCCCW members for putting on a great event. Special thanks to Jim and Kim Dunlap for their assistance all weekend in the tech tent. Your help was immensely appreciated! Marcus was the man this weekend, three 45-minute A-Main wins! Wow! ■

Dear ROAR Region 12 Tracks owners, Thank you to those who took used the proper channels in obtaining ROAR sanctioned events. This is my first year so it took a little longer to get the races scheduled and for us to get acquainted with each other. There has been some confusion in the past about the process of obtaining a regional race, and one thing I would like

to continue to emphasize with the track is if you're interested in holding a ROAR Region 12 race, you must submit the sanction form to me to have it signed. Without the region director's signature, technically speaking the race did not happen.

We will start scheduling region 12 events a lot earlier for next year.

Starting November 1st, we will start accepting sanction forms for consideration for all Region 12 races next year (on-road and off-road, nitro and electric) so track owners and directors, start planning your 2006 calendars now. ■
